CAREER OBJECTIVE

A motivated MCA graduate seeking an opportunity to work as a Software Developer, where **skills in programming, problem-solving, and full-stack development can be applied** to build efficient and scalable applications, while contributing to organizational growth and continuously enhancing technical expertise for long-term professional development in software engineering.

EDUCATION

Master of Computer Applications (MCA) Presidency College, Bengaluru CGPA: 8.25 (still now)	2025 – Present
Bachelor of Computer Applications (BCA) Government First Grade College, Shivamogga CGPA: 7.30 / 10	2022 – 2025
Class XII (Commerce) Sree Vijaya PU College, Honnali Percentage: 86.7%	2020 – 2022
Class X St. Mary's Convent High School, Harihar Percentage: 78.6%	2018 – 2020

INTERNSHIP / WORK EXPERIENCE

Innovant IT Solutions – Software Development Intern

- Worked on PHP-based web application development, contributing to backend logic, database integration, and feature implementation.
- Collaborated with the development team to design, test, and deploy dynamic web projects.
- Gained hands-on experience in full-stack development and project lifecycle management.

ACADEMIC PROJECTS

Agri AI – AI-Based Crop Yield Prediction & Pest Detection

Presidency College, Bengaluru | 2026

- A web-based AI platform developed using Python and Flask to predict crop yield and detect pests using machine learning models.
- The system uses Random Forest and Linear Regression for yield prediction and provides pesticide recommendations based on detected crop diseases.
- Integrated a Large Language Model (LLM) to generate clear and user-friendly explanations about crop health and yield insights.
- Technologies Used: Python, Flask, Random Forest, Linear Regression, Google Colab, Kaggle Dataset

Preowned Car Showroom Management System (Full Stack)

Government First Grade College, Shivamogga | 2025

- A web-based platform developed using PHP and MySQL to manage preowned car listings, customer inquiries, and sales records.
- The system allows admins to add, update, and delete car details, while customers can browse available cars and submit purchase requests.
- Technologies Used: PHP, MySQL, HTML, CSS

SKILLS

Technical Skills

- Programming: C, Java, Python, PHP
- Web Technologies: HTML, CSS, Web Development
- Database: MySQL

Soft Skills

- Communication
- Teamwork
- Problem-Solving

CERTIFICATIONS

- Programming in Python – Coursera 2026
- PHP and MySQL in Web Development– Innovant IT Solutions,Shivamogga 2025

ADDITIONAL INFORMATION

- Languages: English, Hindi, Kannada
